

December, 2013 - Text Message Scam

Choice Bank has received reports of a text message scam that is impacting some of our customers. Debit card customers have reported receiving text messages stating that their debit card account has been breached and asked to provide personal information.

Choice Bank reminds customers that it is important to remember not to give out personal information over the phone including passwords or pin numbers. Choice Bank does not use an automated system to ask for this type of customer information regarding their accounts.

If you believe you have been contacted and unknowingly disclosed personal information in this scam, please contact Choice Bank at 1-920-230-1300 during business hours, or our 24-hour card service assistance at 1-800-554-8969 immediately.
